<sup>3</sup> Thailand is included as part of Asia for Pizza Hut in the Earnings Release System Sales Growth chart.

<sup>4</sup> Guam & Saipan are included as part of the U.S. for Pizza Hut in the Earnings Release System Sales Growth chart.

## 2017 SECOND-QUARTER DEFINITIONS

**Developed & Emerging Markets** classification is based on guidance provided by the International Monetary Fund (IMF) according to the World Economic Outlook (WEO) country classification of "Advanced Economies" vs. "Emerging and Developing Economies" as determined by factors such as GDP, Exports of Goods and Services, and Population.

**Ex F/X** represents the percentage change excluding the impact of foreign currency translation. These amounts are calculated by translating current-year results at prior-year average exchange rates. We believe elimination of the foreign currency translation impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.

**Franchise Restaurants** include franchise and license restaurants.

**Franchisee Sales** represent combined estimated sales of franchise and license restaurants. Franchisee sales, which are not included in the company sales we present on our Consolidated Statements of Income, generate franchise and license fees that are included in the company's revenues.

**Free Cash Flow** represents net cash provided by operating activities and other sources of cash, such as refranchising, employee stock-option proceeds, sales of PP&E and other, less net cash used in investing activities.

**New-Restaurant Openings** include company-owned, franchise, and license restaurants.

**Operating Margin** is defined as Operating Profit divided by Total Revenue.

**System Restaurants** include company-owned, franchise and license restaurants.

**System sales growth** includes the results of all restaurants regardless of ownership, including company-owned and franchise restaurants that operate our Concepts. Sales of franchise restaurants typically generate ongoing franchise fees for the Company at a rate of 3% to 6% of sales. Franchise restaurant sales are not included in Company sales on the Consolidated Statements of Income; however, the franchise fees are included in the Company's revenues. We believe system sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all of our revenue drivers, Company and franchise same-store sales as well as net unit growth.

**Same-Store Sales Growth** includes the estimated growth in sales of all restaurants that have been open and in the YUM system one year or more.
